What is it?

The Stillness Juniors Pinterest page is a resource for parents. Each virtual pinboard is a collection of ideas linked to the different topics in each year group.

What is it for?

Hopefully it will make life just a little bit easier. If your child forgets to mention a themed dress up day until the night before (who hasn't been there!) or if they have topic related homework and you have no idea where to start... the topic boards will give you some ideas. It's also a great resource for fun, creative ideas when your kids want to explore a topic further!

There are ideas for fancy dress, craft activities, videos, colouring templates, photos and cool reads for each year group.

What it's not...

It's definitely not perfect! The pages are still a work in progress – so if you have ideas for other boards you'd like to see added then please email me or grab me in the playground.

Also remember that while Pinterest helps you gather ideas together in one handy place, some links to external sites can get broken and as ever the school is not responsible for the content on external sites.

Thanks!

Claire
